

Join Us for an Exciting Event on the Future of Solar Energy HBCU Clean Energy Education Seminar on Solar Energy

Title: **Perovskite Photovoltaics: Challenges of Commercializing a New Technology**

Date: Jan. 31, 2025

Time: 12:00 PM - 1:00 PM EDT

Location: In-Person (Free Food & Drinks Provided) or Virtual by clicking [Join the meeting now!](#)

A high-level introduction to perovskite photovoltaics will be delivered to explaining why there is so much excitement surrounding this technology and the many challenges facing its commercialization. Information about Sandia's extensive student internship program will be introduced as well.

Why You Should Attend:

Discover the future of solar energy with perovskite photovoltaics and the real-world challenges of commercialization.

Engage with peers and professionals passionate about renewable energy and sustainability.

Network with Dr. Stein and other students who share your interest in advancing solar technologies.

Enjoy free food and drinks if attending in person!

How to Attend:

In-Person Location: Room BCB141

Virtual Attendance: You can join us remotely!
